

SCHF Christmas Appeal 2024

Treatment over Toys – Bauble Template

No child should spend their Christmas in hospital, but those who do deserve our all. As much as we appreciate all the toy donations we receive, we encourage you to consider giving a life-changing gift to support children's healthcare.

A donation to Sydney Children's Hospitals Foundation Christmas Appeal will help thousands of kids each year, with countless numbers benefitting for generations to come. Whether it's used for new equipment, training and education, groundbreaking research, building state-of-the-art facilities or more, the money raised will help provide kids with the world-class healthcare they need and deserve.

Together, we can change the future for sick kids.

A creative way you and your colleagues can show your support this Christmas is by simply making a donation.

- Step 1.** Create your fundraiser page [here](#). Share your page around the office to generate and tally donations. We can help in creating QR codes.
- Step 2.** Make your donation through your fundraiser page to the value you want or were going to spend on toys.
- Step 3.** Print and cut your chosen token/bauble. Write a message with your name on the back if you wish. Then, hole punch and thread a rubber band or ribbon to hang on the Christmas Tree.
- Step 4.** Encourage your colleagues to get involved so your office tree is covered in love and support for sick kids this Christmas.

All in for kids' health
